

SENSITIVE DUO | PIGMENT CORRECTION

Powerful pigment correction, designed for sensitive skin

CYSPERA
SWITZERLAND

Cysteamine 5%
Vitamin C

Isobionic Amide 5%
Vitamin C | Retinol
Soothing Complex

SENSITIVE DUO

CYSTEAMINE | ISOBIONIC-AMIDE

CYSPERA
SWITZERLAND

SENSITIVE DUO is an effective combination of a rinse-off mask and cream, specifically formulated for fragile, sensitive skin, including intimate areas or skin prone to irritation, eczema, or inflammation, helping to:

- Reduce dark spots while respecting natural melanocyte physiology
- Supports skin resilience and strengthen the epidermal barrier
- Smooths and evens skin tone

PROVEN EFFICACY

Correct pigmentation with CYSTEAMINE | Modulate InflammAging with ISOBIONIC-AMIDE.

Independent study, results after 12 weeks once daily

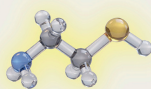

Courtesy of Dr. Corey Hartman (USA). Results after 12 weeks once daily.

- ✓ **86%** of volunteer with pigment correction effect after 12 weeks¹
- ✓ **100%** of volunteers saw healthier looking skin¹
- ✓ **91%** of volunteers perceived smoother skin²
- ✓ **100%** more even tone in intimate areas³

CYSTEAMINE

The Physiologic Pigment Corrector

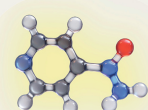

- Targets multiple steps of melanin production
- Respects melanocyte physiology
- Provides antioxidant support

ISOBIONIC-AMIDE

Advanced Inflammaging modulator

- modulates chronic low-grade inflammation associated with pigmentation and aging
- supports cellular energy metabolism (NAD⁺) and SIRT-1 pathways

WHO IT'S FOR

- Sensitive or reactive skin
- Intimate areas such as external genitals, nipples, armpits
- Patients intolerant to aggressive depigmenting agents

HOW TO USE

Apply a thin layer of SENSITIVE once daily to unwashed skin for 5–15 minutes.

For intimate skin, do not leave for more than 5 minutes.

Rinse off and apply Cyspera AGELESS.

Suitable for morning or evening use.
